Title: Ecobin – E-Waste Recycling Guide

Introduction:

Proper handling of electronic waste is crucial to prevent environmental pollution. This guide explains how to sort, store, and recycle e-waste responsibly.

1. Collect E-Waste

- Old mobile phones, laptops, printers, keyboards, and other electronic gadgets.
- Batteries and wires should be collected separately.

2. Sort by Type

- Phones & Tablets
- Laptops & Computers
- Printers & Scanners
- Batteries & Power Banks
- Wires & Small Gadgets

3. Prepare for pickup

- Pack items safely in boxes or bags.
- Label items if necessary to help Kabadiwala identify them.

4. Schedule Pickup

- Request a pickup via Ecobin website/app.
- Your assigned Kabadiwala will collect items on the scheduled day.

5. Hazardous Items

- Batteries and other chemical-containing items must be stored safely.
- Follow safety instructions to prevent accidents.

Tips for Eco-Friendly Recycling

- **Reduce:** Avoid buying unnecessary electronics.
- **Reuse:** Repair or donate old gadgets.
- **Recycle:** Always use certified recycling services.
- **Educate:** Spread awareness about proper e-waste disposal.
